

## Why should teachers use newspapers in their classrooms?

NIE helps students of all ages meet the challenges of the future by providing information and skills that are essential for leading productive adult lives.

*In this local classroom, Mondays and Wednesdays are "World in Brief" days. Students break into groups and examine current news happenings from around the world.*

The Pittsburgh Tribune-Review NIE Program Provides teachers with an everyday "living textbook" to enhance their lesson plans.

Newspapers make the connection between all subjects and the real world.

NIE helps students become informed citizens and reinforces critical thinking skills.

Call today for **FREE** newspapers for **YOUR** classroom!

**Newspapers motivate kids to read more and think more!**

## Help create the future!

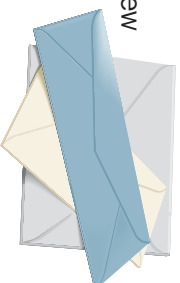

Hurry and request your **FREE** copies of Pittsburgh Tribune-Review classroom newspapers.
